

Not everyone wants big cattle, if you have 5, 10, 20 or even 100 acres then Miniature Herefords may be for you.

As pets, lawn mowers or for the freezer, Miniature Herefords offer all the benefits of big cattle just with shorter legs, a lighter footprint and quiet nature.

Breeders Network**

**Class 1**

Senior cow 3 years  
and over with own  
calf/calves at foot

## Class 1 - Entry 1

### Connordale Jocelyn

Cow DOB: 09/09/2013

Calf age at photo: 8 Months

**Sire:** Boomer Creek Oscar

**Dam:** Boomer Creek Cutie

**Exhibitor:** Benscroft Miniature Herefords, Tasmania

**Result:** 1st

**Comment:** I have placed this very productive cow 1<sup>st</sup> primarily due to the strong calf she has raised.

## Class 1 - Entry 2

### Winswood Gianne

Cow DOB: 27/08/2016

Calf age at photo: 3 Weeks

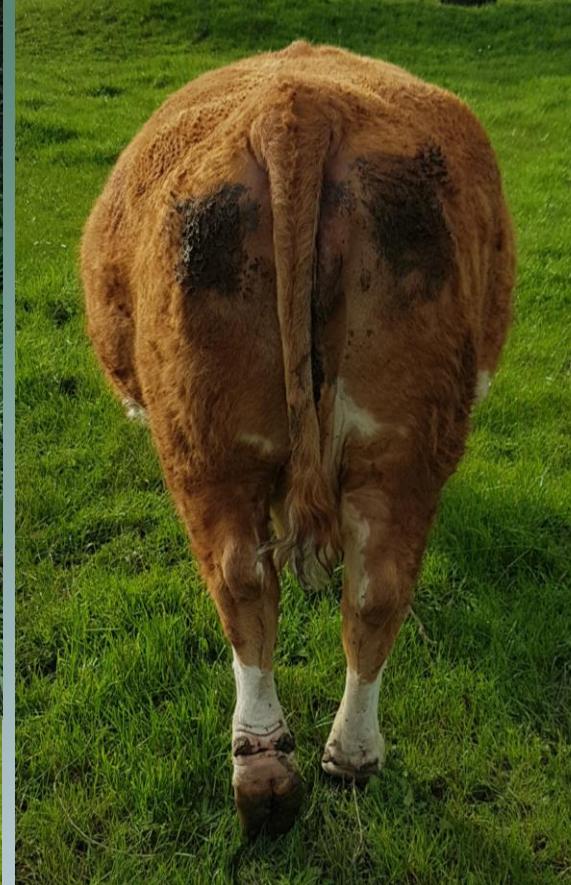

Sire: Rosewood Mr T

Dam: Boomer Creek Milly

Exhibitor: Hinterland Mini Herefords, Queensland

Result: 2nd

Comment: A very impressive package with a sappy calf at foot. However I do wonder if this cow is putting more into her self and not making milk. I would like to have a photo of the udder to see the milking capacity of this cow.

## **Class 1 - Entry 3**

### **Shady Creek Freya**

**Cow DOB: 22/01/2016**

Sire: Shady Creek Bruno

Exhibitor: Shady Creek Miniature Herefords, Victoria

Result: 3rd

**Calf age at photo: Calf born that day**

Dam: Bridgewater Hayley

Comment: This cow is a long bodied cow with a lot of cover over the rump. Though there are signs of swelling in the udder it appears that she has the capacity to produce a good supply of milk to go on and produce a good calf.

## Class 1 - Entry 4

### Shady Creek Harlee

**Sire: Boomer Creek Nebraska**
