Calf age at photo: 2 Weeks Old

Sire: Boomer Creek Nebraska

Calf age at photo: 9 Days

Sire: Boomer Creek Nebraska

Class 9

Steer

12 – 24 Months

Shady Creek Steer

DOB: 30/09/2021

Sire: Shady Creek Harry

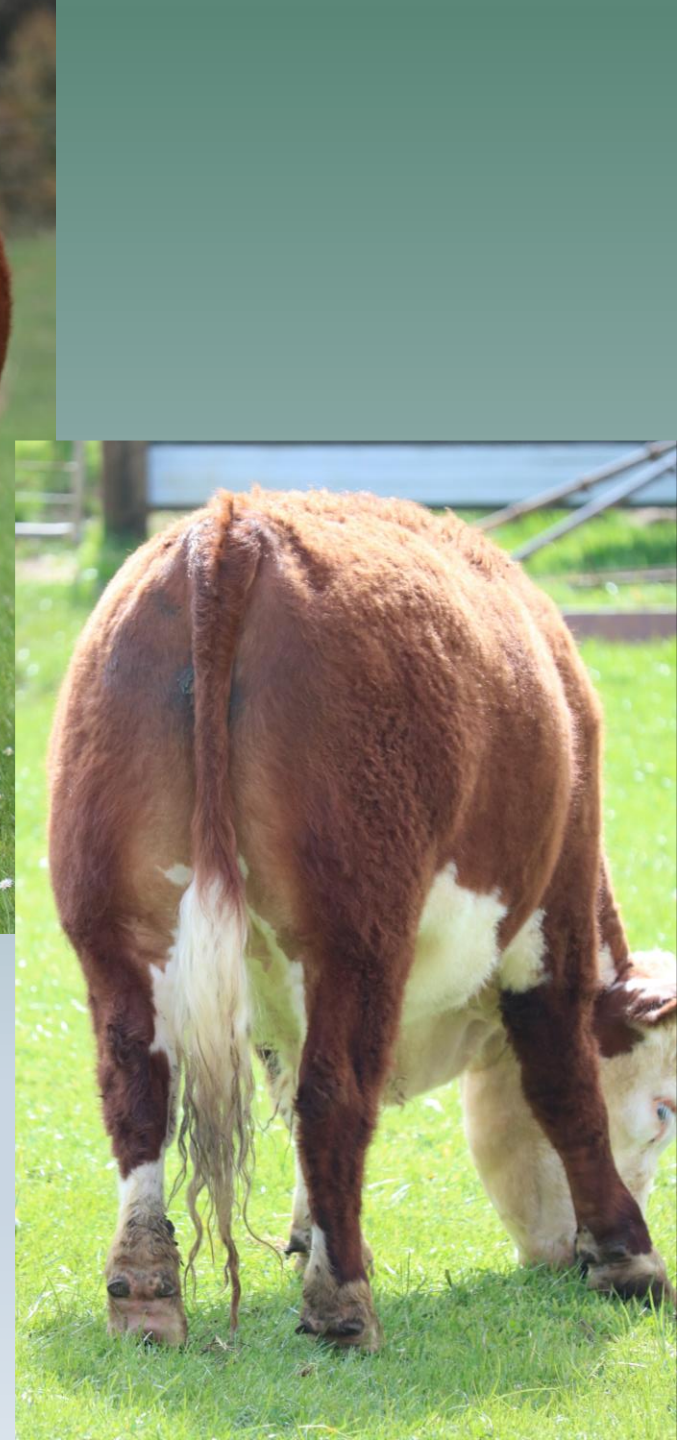

Dam: Shady Creek Effie

Exhibitor: Shady Creek Miniature Herefords, Victoria

Result: 1st

Comment: These two steers are extremely difficult to separate, as they have different butt shapes. I have placed this steer 1st as I feel he will have a carcass that will fit into the grid system.

Bescroft Steer

DOB: 17/11/2021

Sire: Bescroft Quantam

Dam: Bridgewater Lettie

Exhibitor: Bescroft Miniature Herefords, Tasmania

Result: 2nd

Comment: An example of what all producers are aiming to achieve. I have placed this steer 2nd due to the photo of the butt. I feel that there may be too much fat cover which will penalise the producer. However, once the animal is hanging, I could be totally wrong.
